

Editor's introduction to the work of Dr. Greg A. Grove:

This magazine is about new and different perspectives. Over and over again, you will find that I include, with considerable pride, views and ideas which contradict my own, simply because they are possible, useful, or beautiful. I just love a new world! Here is a world most magical, elegant, rich in detail and image. Alchemical psychology?...Archetypal preconscious augmentation?...Reverie by symbolic design?...Allegorical seeding of the preconscious?...Symbolic spiritual psychology? Perhaps. I do not know the exact label...only that I do not myself understand reality in this way, and, that the writing and symbolism are beautiful. That is enough. I invite you into a delicate and image-laden world of reverie and mystery, chance and possibility...truth and imagining...read slowly, and allow the words to wash over you as waves of sound and light...and soon, you will be granted entry in to the mysterious world of Dr. Greg A. Grove: *Leopards in the Sky*.
